Sales Cloud, Service Cloud, Community Cloud

Solutions & Methodology

Sales and Service management - Solution type

Ui path

Focused Agile teams - Global Delivery

3 squads each with 9 members including BA, Architect, Dev, QA

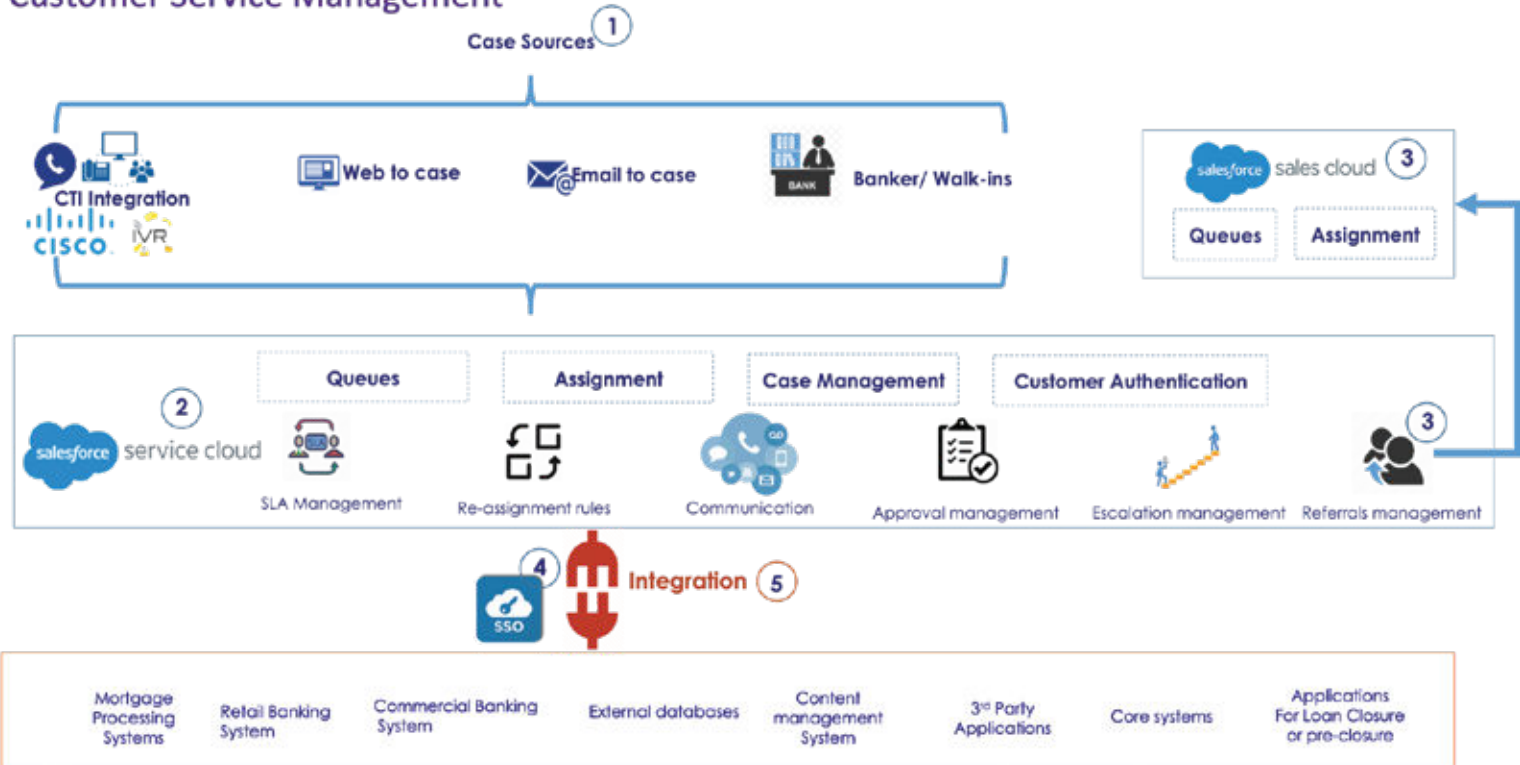

Challenges

- o Dependency on MS Outlook to raise cases/ service request and share attachments
- o Manual activity in segregating and assigning of the requests to the 'Bank Specialists' team.
- o Users required to manage the rules manually to assign requests to Bank service specialists
- o Manual effort required to track the efficiency of the service specialists.

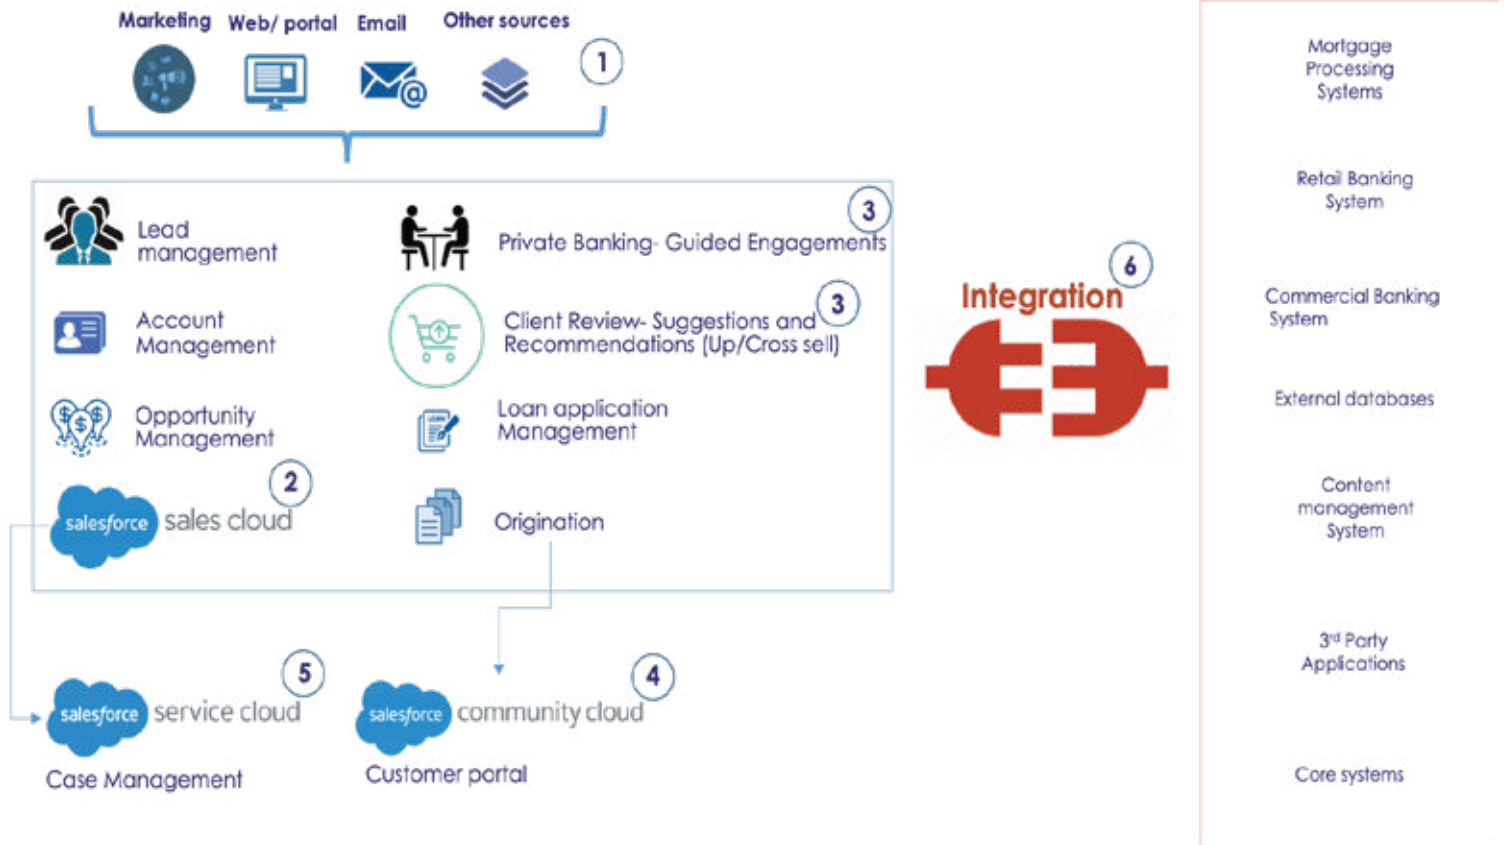

Benefits

- o In-depth case visibility
- o Reduction in turnaround time
- o Standardization of processes
- o Ease in tracking resource efficiency
- o Intuitive and simple interface
- o Increase in customer acquisition
- o User friendly app for quicker approvals for smoother sales process by Small business and Commercial banking users.
- o One view of balance enquiry for multiple accounts.
